

## ***Everfree Fast Silver***

*Last Update: 02/08/2026*

Everfree Fast Silver		
<i>Switch Type: Linear</i>	<i>Gateron</i>	
28	/35	Push Feel
16	/25	Wobble
6	/10	Sound
12	/20	Context
4	/10	Other
66	/100	<b>Total</b>

### **Notes**

#### **Push Feel**

Like the majority of the Everfree family of switches, Gateron's budget-friendly intro line, the Everfree Fast Silvers are well lubed linears with a high actuation point and fairly restricted total stem travel. While the bottom out of these switches is a pointed, and in turn clashes with the thinner, lighter topping out, it is not nearly as pointed, sharp, nor aggressive as other reduced stem travel switches and makes for a switch that on the whole feels heavier and a bit more composed than its lighter spring weighting.

#### **Wobble**

Equal in magnitude in both N/S and E/W directions, the Fast Silvers are among the most wobbly of the Everfree switch family that I've tried leaving them in a not quite bad but far from great state with respect to this metric.

#### **Sound**

Similar to the push feeling notes above, the Everfree Fast Silver switches are quiet to medium-volumed switches that have a slightly snappy, bassy bottom out and a thinner, higher pitched topping out. Without any real noise from scratch nor spring ping, the only substantial marks against these switches' sounds are their occasionally sticky sounding bottom out and tendency to move quite a bit in their sound profile as you increase your typing speeds.

#### **Context**

Priced at \$0.28 per switch, these switches are an absolutely great deal at their price point and really raise the quality floor on switches at the entry level for consumers. (This is something that could be said of all Everfree switches, in fact.) However, though, these are among the least marketed and ostensibly lowest effort EF designs that Gateron has released yet.

#### **Other**

With sustained lack of success of the Everfree family that have all the markings of a community hit, these definitely seem like Gateron losing steam in their budget-friendly interests.
